

Growatt GroPlug-X Quick Configuration Guide

Step1. Download the ShinePhone APP

Scan the QR code below to download ShinePhone, or search for ShinePhone in App Store or Google Play to download. Make sure you have the latest version of the software installed. If you need more details, please visit <http://Server.growatt.com>.

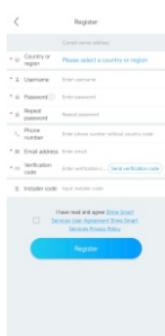

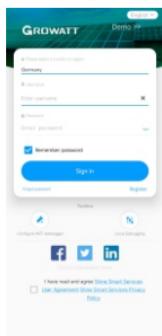

【Android & IOS】

Step2. Register

First, connect the phone to a router on the wireless network.

Run ShinePhone APP to enter the registration page. Fill in the registration information, click Register.

Step3. Add a power station

The page for adding a power station is displayed.

Fill in power station information and Click "Add Plant".

Step4. Configure network

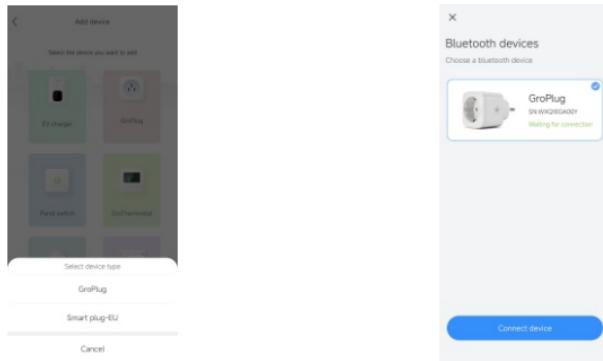

Connect the GroPlug-in X to the mains, and press 5S to access the Bluetooth distribution network

LED Status	Troubleshooting
Off	<p>GroPlug-X does not start properly:</p> <ol style="list-style-type: none"> 1. Check whether the Groplug-X is connected to the Grid. 2. Plug and unplug the Groplug-X. 3. Connect the GroPlug-X to another location.
Green	<p>GroPlug-X outputs normally, but does not enter the configured network state; Press and hold the button again to enter the distribution network state.</p>
Flashing Blue	<p>GroPlug-X enters the distribution network state, and you can configure the network.</p>

Step5. Add GroPlug-X

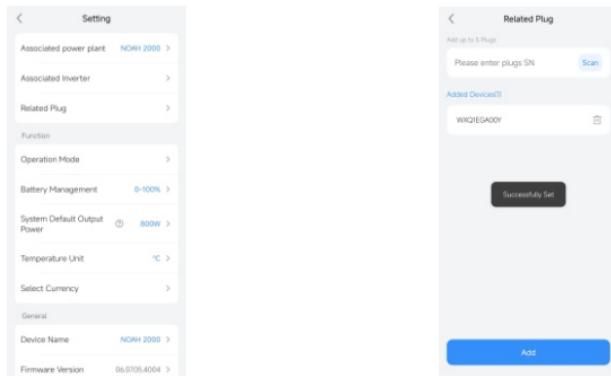

Go to the Add device page, click Add GroPlug-X , complete the device network allocation and binding according to the APP instructions.

If you do not need to associate NOAH 2000, skip Step6.

Step6. Binding GroPlug-X to your NOAH 2000

Go to the setting page of the corresponding NOAH 2000 power station, click Related Plug, and enter the SN corresponding to GroPlug-X (Maximum of 5PCS can be binding).
